

Dr Katrina Tiller

Breast Physician

MBBS, Dip RANZCOG, FRACGP

Dr Katrina Tiller has provided comprehensive general practice care in the North Ryde area for many years.

As women's health has always been a large part of her clinical practice, and an area of special interest, she joined the Breast Physician team at Sydney Breast Clinic in 2012.

At Sydney Breast Clinic she works as part of the multidisciplinary team to provide specialised care for women with breast concerns.

As she understands first-hand the vast amount of information GPs need to assimilate, she is able to help GPs negotiate the best management plan for an individual patient.

After graduating from the University of New South Wales, Katrina completed her internship and residency at Royal Prince Alfred Hospital.

She obtained her Fellowship of the Royal Australian College of General Practitioners in 1995 after completing a Diploma in Obstetrics at Blacktown Hospital and general practice terms in south western Sydney.

Katrina enjoys the personalised, comprehensive and complete care she is able to provide at the Sydney Breast Clinic.
