

Felicity Hoolihan **Sonographer and Mammographer**

Bachelor of Medical Radiation Science (Medical Imaging), Graduate Certificate in Breast Imaging

Felicity Hoolihan is a breast sonographer and mammographer. She initially obtained her Medical Radiation Science degree in 2008 and has chosen to specialise in medical imaging of the breast.

She obtained her certificate of clinical proficiency in mammography (CCPM) from the Australian Institute of Radiography in 2011 and has also completed a Graduate Certificate in Breast Imaging from the University of South Australia.

Felicity is recognised as a Breast Sonographer with the Australian Sonographer Accreditation Registry.

Practicing as a diagnostic radiographer, Felicity has previously worked in remote, regional and tertiary teaching hospitals.

Since commencing breast imaging in 2011 she has worked at a variety of specialty breast clinics including the Westmead Breast Cancer Institute and BreastScreen services in NSW and WA.
